- ✓ Avoid billshock
- ✓ Secure and resilient connectivity
- ✓ Multiple Industrial Grade SIM types available
- ✓ Access to our smart connectivity platform – Alfakom
- ✓ Future proof your connectivity with Remote SIM Provisioning

*Exclusively for wholesale. VAT is not included in the price.

5-Year Global Flat Rate

Key features

Order placed

We aim to send and activate the SIM immediately.

30-day grace period

5-year term will automatically start 30 days after the shipment date.

Invoice

Invoices will be issued with the shipment of the order.

5-year term begins

Data and SMS allowances are valid for the full term. A Top-up can be purchased if the allowances are consumed or to renew the term.

Usage alert

Alerts are issued when 90% of Data and SMS are consumed or when there is 1 month remaining of the term.

Top-up

Top-up includes full Data and SMS volume. Any unused Data or SMS remains valid for the remainder of the original term.

Choose our solution for multiple applications in the field of IoT-M2M

Reliable and secure

Alfakom is 100% dedicated to IoT connectivity and data services meaning your security and reliability needs are always prioritised and under your full control.

Global resilient coverage

Leverage geo-distributed mobile cores, local network breakouts and multiple network partners in all key markets to achieve globally compliant connectivity.

Scale fast and with confidence

A single SIM for global or deployments combined with deep network insights and control enables rapid deployment and assurance that issues can be diagnosed and resolved quickly.

Reduce cost of ownership

Network and on-SIM intelligence enables post-deployment optimisations to be made OTA. Flexibility lets you pivot into new markets & solve regulatory or commercial issues as you go.

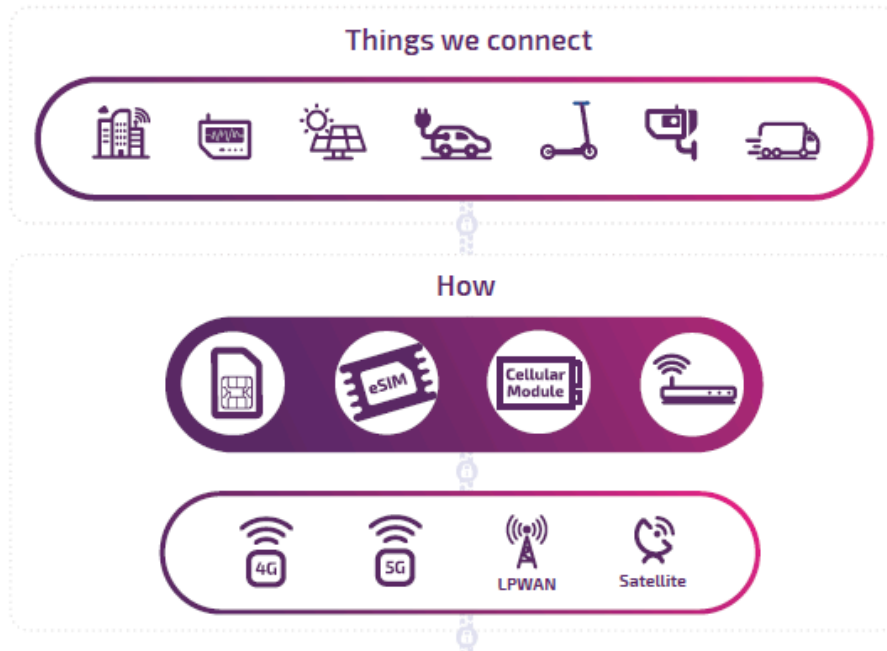

Our platform is able to:

- ⊙ resolve challenges in procurement, manufacturing & logistics processes
- ⊙ provide in-life management and optimisation capabilities
- ⊙ resolve industry security and scalability challenges
- ⊙ be a single integration point to an eco-system of leading radio networks partners

How **Alfakom** works...

Platform & Services

-  Geo-distributed, resilient cores
-  Remote SIM Provisioning
-  Connectivity Management

Control (API)  Data

Enterprise Applications

Why use **Alfakom**...

Single SIM for Global Deployments

Deploy with confidence using a single global SIM which can be optimised over-the-air.

Simplify your Supply Chain

Reduce complexity in your procurement and logistics processes for a seamless factory to field transition.

Secure by Design

Advanced on-SIM applications and network services enhance system security.

Advanced Management and Control

Control and manage your on-SIM and on-device behaviour using rich analytics and insight from our platform.

IoT Expertise. *Support all the way from design to deployment*
